# **NSCC 2022 SPEED CHAMPIONSHIP**

I would like to welcome you to the NSCC Speed Championship.

The championship will comprise of 20 events (14 sprints and 6 hill climbs) at circuits such as Hethel, Snetterton, 3 Sisters, Blyton and the classics of Curborough & Aintree with the hills of Harewood, Barbon, Shelsley Walsh & Scammonden.

The cost of membership to NSCC is only £12 (This will allow NSCC members who do not wish to enter the championship to compete in NSCC and NSCC invited events during 2022). Championship registration is a further £20.

NSCC will promote 4 events over two weekends at Curborough in June and Blyton in September. These 4 events will carry a bonus point system of 1 point for each event entered.

We have also aligned our technical regs to be the same as the majority of the clubs in the midlands and northern championships to make things easier for all involved.

The website and prompt email service will keep you up informed of championship standings as the season progresses.

Awards will be presented to the top ten scorers (best 8 scores to count) plus novice, best improver, female and classic car trophies.

Come and join us for a great season of motor sport in 2022, remembering the bonus points available from NSCC events.

John Clarke  
Chairman

#### 1.5 Championship rounds

The date, location and organising Club for each of the Championship qualifying rounds are defined in these Regulations. Should any event be cancelled the Organisers reserve the right to reduce the number of rounds accordingly as described in 1.6.5.

## 1.6 Championship scoring

1.6.1 The system of Championship points is defined in these Regulations. The table of target times will be published on the Club website, [www.nottinghamsportscarclub.co.uk](http://www.nottinghamsportscarclub.co.uk), before the first event. Points will be gained according to classification in an eligible class against the appropriate

Target time at each venue, as follows:

- a) Equaling the Target time will gain 20 points.
- b) A slower time than the Target time will reduce this by 0.01 point for each 0.01-second difference, with a minimum score of zero.
- c) A faster time than the Target time will increase this by 0.01 point for each 0.01-second difference up to a maximum of score of 21 points.
- d) All timed runs that count for awards at a meeting will be eligible to score Championship points.
- e) A competitor must be classified as a finisher to gain Championship points.
- f) Where classes are merged by the organisers of an event, or where the class structure is not run in accordance with these Regulations, it is the responsibility of the competitor to inform the Championship Scorer of any ineligibility within his or her Class.

1.6.2 It is recognised that changes in climatic conditions such as rain, cool temperatures etc. and subtle changes to course layout caused by the temporary nature of some venues can affect a competitor's ability to challenge meaningfully for Target times in some instances. In the event that these changes make a significant difference to the competitor's ability to meaningfully challenge any target times, as defined below, the following scoring system will apply.

- I. If 51% or more of the total entry achieve a time that is 113%, or more, slower than the NSCC target times, then regulation 7(a) will apply.
- II. If 51% or more of the total entry achieve a time that is faster than the NSCC target time, then regulation 7(a) will apply.
- III. Where no target time exists for a 'new' venue (i.e. where no speed event records exist for the classes defined in these regulations) or if an existing venue has been revised, then rule 7(a) will apply.

7(a) Where regulation 7 i), ii), or iii) is applied, 20 points will be gained in each class by the fastest competitor complying with these regulations, whether registered for the Championship or not. Points will then be gained by a reduction of 0.01 point for each 0.01 second difference to the time of that competitor.

1.6.3 Target times for all venues may be challenged for a period of 21 days after the publication on the Club web site of the scores. After this period all target times will be deemed final. Target times are reviewed annually by the Technical Sub-Committee.

1.6.4 The Classic Car Class operates on a separate set of calculated Target Times based on the Target Time for the appropriate Championship class, with an allowance for the age of the vehicle and the engine size in cubic centimeters. Points for the Classic Car Award will be calculated as follows:

- (a) Competitors must compete for the main Championship but only cars from SA-SB and 1A-1C are eligible for the Classic Car Class,
- (b) Vehicle Age must be over 25 years from Jan 1 2020.
- (c) Points calculation is based on factors for age and engine size compared to the entered class, as follows:

(i) Age Factor (AF) =  $1 - (1 / \text{age}) + 0.195$

(ii) Engine Age Factor (EAF) =  $0.1 + (0.005 \times (\text{Age} - 25))$

(iii) Engine Size Factor (ESF) =  $1 - (\text{engine actual size} / \text{engine max size for class})$   
(For classes without an upper limit a notional limit of 5000cc will be used.)

Then the Overall Engine Factor (OEF) = EAF x ESF

Finally the New Target Time = Standard Target Time x (AF + OEF)

There will be no upper limit for points scored at each round for this Class.

1.6.5 In each qualifying round, a competitor will compete in the appropriate class for the awards offered for the meeting. Championship points will be gained according to the appropriate NSCC championship class at the time of the meeting. The Championship organisers reserve the right to re-classify any vehicle to a more appropriate Championship class.

a) The best 8 scores of each competitor will count towards the Overall Championship subject to there being 10 or more Championship rounds. In the event of a reduction in the number of Championship rounds to 9 rounds then the best 7 scores will count, in the event of a reduction round to 8 rounds then the best 6 scores will count. In the event of a reduction to less than 8 rounds then all events will count.

b) The scores from the 4 NSCC organised events will qualify for a separate award, with the points being gained in the same way as for the Overall Championship. For this award, if one or more rounds are cancelled then all remaining rounds will count. Competitors in the first three places of the Overall Championship will not be eligible for this award.

c) Championship scores will be declared final 21 days after the championship results for each round are issued. Competitors who wish to query a score with the Championship Scorer must do so in writing/email during this period.

d) A minimum of 5 rounds must take place for the championship to be valid

## 1.7 Awards

1.7.1 An award will be made based upon the fastest times achieved by NSCC championship registered competitors at each round, with points gained as follows: Fastest NSCC time of the day: 10 points, 2nd fastest 8 points, 3rd 6 points, 4th 4 points, 5th 3 points, 6th 2 points, 7th 1 point. The best 8 scores from all entered rounds will count. In the event of a tie on the day for any position, the points will be determined in favour of the competitor with the best second run time. In the event of a tie for the FTD award after completion of all rounds, the position will be determined in favour of the competitor who achieved the scores at the greatest number of different venues. If a tie remains, the position will then be determined in favour of the competitor with the highest placing in the main Championship.

1.7.2 An award will be made to the highest placed female competitor who qualifies for the Championship.

An award will be made to the highest placed competitor in the Classic Car Class who qualifies for the Championship.

An award will be made to the highest placed novice who qualifies for the Championship.

A novice is defined as a registered competitor competing in their first or second consecutive season of speed events whom has not previously held a Motorsport UK licence prior to that and who has not won a first-in-class award before the first round.

An award will be made to the competitor who shows the greatest improvement over the previous season's performance. The average points scored by each competitor in the two seasons will be compared. To qualify for this award a competitor must have a minimum of 4 scores in each season and must not have finished in the top three of the NSCC championship in the previous 3 years.

1.7.3 In the event of a tie for a Championship place or other award, except the FTD award, the placing will be determined in favour of the competitor whose total score was achieved at the earliest round of all the rounds in which they competed, including any discarded rounds. If the tie remains, it will then be determined in favour of the competitor with the highest individual score at all rounds. If the tie still remains, the award will then be shared.

1.7.4 Appeals regarding Championship Points awarded must be in accordance with 2022 Motorsport UK Yearbook Section C.

1.7.5 Awards will be presented as specified in these Regulations. Perpetual trophies and discount awards will only be issued where the competitor attends the NSCC Awards Dinner at Morley Hayes Golf Club on 20<sup>th</sup> November 2022.

1.7.6 Except as defined below, all vehicles must comply with the general, technical and safety requirements in the Motorsport UK 2022 Yearbook, appropriate to the class. If a competitor is in doubt about the eligibility of his vehicle the Eligibility Scrutineer should be consulted.

1.7.7 Championship classes are defined in these Regulations

1.7.8 Temporary Car Substitution - Competitors may change car and / or class on a maximum of two occasions during the course of the Championship provided they notify the championship co-ordinator in writing/SMS/email on or immediately after the event. Points will be awarded against the relevant class. The points obtained so far will be kept against the drivers name.

**1.7.9 A single bonus point will be awarded for each NSCC run event entered. This is in addition to any points scored and not subject to the maximum 21 points per round rule above.**
