NOTES: Target times in red indicate a calculated time ie no data

Time set by 4wd Car - Target calculated back by dividing by 0.95

Blue = New or revised for 2016

Nationally Adjusted Target Times

Class targets adjusted for Tyre changes

- 1 The base data - The actual record times, date set, driver name and vehicle are listed on the base data pages
- 2 Curborough times (1 and 2 lap) are age corrected as applicable - a small amount of time added for each year (over 5 years) if the target has not been broken.
- 3 National venues are 'adjusted' (making them slightly easier) if the records set are faster than a calculated NSCC time
- 4 For 2016 the target times for classes 1A, 1B, 1C, 2A and 2B have been adjusted (made slightly easier) to allow for the new MSA tyre list changes
- 5 Rounds 16 to 22 added

NSCC SPEED CHAMPIONSHIP BASE DATA 2016 - version5 - 2/8/16

Rockingham ISS

CLASS		Capacity	Target 2016	Date	Name	Vehicle	Source
